The National Ocean Service of the National Oceanic and Atmospheric Administration of the Department of Commerce of the United States of America (hereinafter referred to as NOAA) and the Secretariat of Culture of the Ministry of Education, Culture and Sport of the Government of Spain (hereinafter referred to as the Secretariat of Culture):

Recognizing that NOAA (16 U.S.C, 1431, 1435(c)), and the Secretariat of Culture each has authority and responsibilities within their respective governments and nations for the protection for public benefit of underwater cultural heritage resources and sites, including shipwrecks and associated remains of vessels of historical and/or archaeological significance;

identity of the people of the United States and/or Spain within the existing responsibility and authority of the Signatories to preserve and protect such heritage for public benefit;

Noting the mutual interest in continuing and strengthening the programs of the Signatories relating to underwater cultural heritage resources and sites and facilitating exchanges of information or other collaboration concerning potential site-specific projects;
