I. BACKGROUND

A. The United States of America (the “United States”) on behalf of the Secretary of the United States Department of the Interior (“DOI”) and the Secretary of the United States Department of Commerce (“Commerce”) (acting through the National Oceanic and Atmospheric Administration (“NOAA”)), and the State of Ohio (the “State”), by and through the Attorney General of Ohio, on behalf of the people of Ohio, and at the request of the Ohio Environmental Protection Agency (“Ohio EPA”) (collectively the “Plaintiffs”), filed Complaints asserting claims under Section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (“CERCLA”), 42 U.S.C. § 9607, and Section 311 of the Federal Water Pollution Control Act, as amended, 33 U.S.C. § 1321, commonly known as the Clean Water Act (“CWA”), seeking damages for injury to, destruction of, or loss of natural resources belonging to, managed by, held in trust by, controlled by, or appertaining to the United States or the State, resulting from releases of hazardous substances into or which have migrated into the Ashtabula River Area, including the costs of assessing such injury, destruction, or loss.

B. The Complaints filed by Plaintiffs herein allege that natural resources, including but not limited to, fish, invertebrates, birds, water and sediments, have been injured and that the public has suffered the loss of natural resource services, including lost recreational fishing, reduced opportunities for navigation, and passive human use losses, as a result of releases of hazardous substances to the Ashtabula River Area from various facilities in Ashtabula, Ohio. The Complaints also allege that Plaintiffs have incurred costs in connection with the assessment of such injuries, destruction or losses. The Complaints allege that hazardous substances, including, but not limited to, polychlorinated biphenyls (“PCBs”), polynuclear aromatic

hydrocarbons (“PAHs”), chlorinated benzenes, chlorinated ethenes, hexachlorobutadiene and heavy metals, have been detected in the sediments, water and fish of the Ashtabula River Area.

C. The Complaints further allege that Settling Defendants are liable for damages for injury to, destruction of, or loss of natural resources within the Ashtabula River Area because Settling Defendants (or their predecessors) are owners or operators of one or more facilities from which such releases occurred or were owners or operators of one or more such facilities at a time hazardous substances were disposed at such facilities. In addition, the Complaint filed by the State alleges that Settling Federal Agencies are liable for damages for injury to, destruction of, or loss of natural resources within the Ashtabula River Area because Settling Federal Agencies (or their predecessors) are owners or operators of one or more facilities from which such releases occurred or were owners or operators of one or more such facilities at a time hazardous substances were disposed at such facilities.

D. The defendants that have entered into this Consent Decree (“Settling Defendants”) do not admit any liability to the Plaintiffs arising out of the transactions or occurrences alleged in the Complaints. The Settling Federal Agencies do not admit any liability arising out of the transactions or occurrences alleged in any claim asserted by the State. By entering into this Consent Decree, undertaking the obligations imposed under its terms, and making the payments required by its terms, Settling Defendants and Settling Federal Agencies do not expressly, or by implication, admit liability for damages for injury to, destruction of, or loss of natural resources in the Ashtabula River Area as alleged in the Complaints or otherwise.

E. Pursuant to Executive Order 12580 and the National Contingency Plan, 40 C.F.R. Part 300 (the “NCP”), DOI through the United States Fish and Wildlife Service (“FWS”) and the

United States Department of Commerce, acting through NOAA, have been delegated authority to act as Federal Trustees for natural resources impacted by the releases of hazardous substances into or within the Ashtabula River Area. Ohio EPA has been delegated authority to act as the State Trustee for natural resources impacted by such releases of hazardous substances.

F. Pursuant to 43 C.F.R. Part 11, the FWS, NOAA, and Ohio EPA (collectively the “Trustees”) initiated an assessment of injuries to natural resources resulting from the releases of hazardous substances into or within the Ashtabula River Area.

G. Pursuant to the Great Lakes Legacy Act of 2002, as amended, 33 U.S.C. § 1268, the United States Environmental Protection Agency entered into a Project Agreement with the Ashtabula City Port Authority to provide for, among other things, removal of approximately 497,000 cubic yards of contaminated sediments from a segment of the Ashtabula River between the Upper Turning Basin and the Fifth Street Bridge, proper disposal of such sediments, and implementation of certain habitat restoration activities. Funding for the Ashtabula River Great Lakes Legacy Act Project (“GLLA Project”) was provided by the United States, the Ashtabula City Port Authority, in cooperation with ARCG II, and the State of Ohio. Sediment removal activities under the Project Agreement were completed during 2007, but habitat mitigation activities under the GLLA Project have not yet been completed.

H. Pursuant to the Rivers and Harbors Act of 1937 and the Water Resources Development Act of 1986, as amended, 33 U.S.C. § 2211, and pursuant to Sections 312 (a) and (f) (3) of the Water Resources Development Act of 1990, as amended, 33 U.S.C. § 1272(a) and (f)(3), the Department of the Army and the Ashtabula City Port Authority have entered into a Project Cooperation Agreement (W912P4-07-D-0003) for the removal of approximately 135,000

cubic yards of contaminated sediments found outside the boundaries and adjacent to the Federal navigation channel between the Fifth Street Bridge and the mouth of the Ashtabula River, and for the disposal of such contaminated sediment in a privately owned disposal facility, as described in the Final Comprehensive Management Plan (feasibility report) and Environmental Impact Statement dated August, 2004 and approved by the Assistant Secretary of the Army on March 3, 2006. The dredging, removal and disposal of contaminated sediments pursuant to Project Cooperation Agreement W912P4-07-D-0003 commenced by April 1, 2008 and was completed in July, 2008. The Project is defined at Section I.A. of the “Project Cooperation Agreement between the Department of the Army and Ashtabula City Port Authority for Removal and Disposal of Contaminated Sediments from Outside the Boundaries and Adjacent to the Federal Navigation Channel Between the Fifth Street Bridge and the Mouth of the Ashtabula River” entered into on August 22, 2007.

I. In March, 2008, the Trustees published their Draft Natural Resource Restoration Plan and Environmental Assessment for the Ashtabula River and Harbor Site, dated February 22, 2008 (“Draft Restoration Plan”). The Trustees held a public meeting on April 22, 2008 in Ashtabula, Ohio regarding the Draft Restoration Plan and provided an opportunity for submission of public comments on the Draft Restoration Plan until April 30, 2008. After considering and responding to the comments submitted during the public comment period on the Draft Restoration Plan, the Trustees published notice of adoption of a final Natural Resource Restoration Plan and Environmental Assessment for the Ashtabula River and Harbor Site on November 10, 2009. A transcript of the public meeting, copies of the public comments on the Draft Restoration Plan, and the Trustees’ response to such comments are all available to the

public as part of the administrative record maintained by the Trustees for the Ashtabula River Area.

J. In order to facilitate more expeditious restoration of natural resources, ARCG II has previously incurred \$695,289 in connection with acquisition of five of the Restoration Properties identified in Appendix B and various preliminary restoration planning activities.

K. The United States, the State of Ohio and the Settling Defendants (collectively, the “Parties” to this Consent Decree) recognize, and the Court by entering this Consent Decree finds, that this Consent Decree has been negotiated by the Parties in good faith, that implementation of this Consent Decree will avoid prolonged and complicated litigation among the Parties, and that this Consent Decree is fair, reasonable, consistent with applicable law, and in the public interest.

NOW, THEREFORE, before the taking of any testimony, without adjudication of any issue of fact or law, except as provided in Section II (Jurisdiction), and with the consent of the Parties, it is hereby Ordered, Adjudged, and Decreed:

and agents whose duties might reasonably include compliance with any provision of this Decree, as well as to any contractor retained to perform work on behalf of the Railroads under this Consent Decree. VI. ARCG II RESTORATION PROJECTS

6. Subject to the provisions of Paragraph 19, below, ARCG II shall implement ARCG II Restoration Projects on each of the Restoration Properties identified in Appendix B, in accordance with the provisions set forth below in this Section VI.

7. The Trustees may identify Additional Restoration Properties that they determine are suitable for implementation of ARCG II Restoration Projects consistent with the approved Restoration Plan. For a period of one year after the Effective Date of this Consent Decree,

ARCG II shall use best efforts, subject to the provisions of Paragraph 19, below, to acquire such Additional Restoration Properties, including the payment of reasonable sums which shall be subject to approval by the Trustees. Subject to the provisions of Paragraph 19, below, ARCG II shall implement ARCG II Restoration Projects in accordance with the provisions set forth below in this Section VI on any Additional Restoration Properties acquired by ARCG II.

8. For each Restoration Property and for each Additional Restoration Property acquired prior to the Effective Date of this Consent Decree, ARCG II shall, within 90 days after the Effective Date of this Consent Decree, develop and submit to the Trustees for approval in accordance with the provisions of Section VIII (Review and Approval of Workplans and Other Submissions), Restoration Workplans providing detailed descriptions of activities proposed to be undertaken on each such Restoration Property and Additional Restoration Property to restore, replace or acquire the equivalent of natural resources that the Trustees allege were injured as a result of releases of hazardous substances into or within the Ashtabula River Area, together with proposed schedules for implementation of such activities, estimated costs of such activities, and the basis for such cost estimates. Each such Restoration Workplan shall be consistent with the Natural Resource Restoration Plan & Environmental Assessment for the Ashtabula River and Harbor Site attached hereto as Appendix C (hereinafter "Restoration Plan") and with the Scope of Work attached as Appendix D to this Consent Decree.

9. For each Additional Restoration Property acquired after the Effective Date of this Consent Decree, ARCG II shall, within 60 days after acquisition of such Additional Restoration Property, develop and submit to the Trustees for approval in accordance with the provisions of Section VIII (Approval of Workplans and Other Submissions), a Restoration Workplan

following approval of such draft deed by the Trustees, cause the title searches of the Restoration Property or Additional Restoration Property that is the subject of the deed to be updated if requested by the Trustees, and execute and deliver to the Acceptable Entity, the approved deed along with final title evidence acceptable under the Standards for each such Restoration Property or Additional Restoration Property. ARCG II shall ensure that each such deed is properly recorded.

If ARCG II is unable to acquire one or more of the Additional Restoration Properties identified by the Trustees pursuant to Paragraph 7, above, within one year after the Effective Date of this Consent Decree and ARCG II has expended less than \$1,454,711.00 in Qualified Costs upon completion of ARCG II Restoration Projects on the Restoration Properties and all of the Additional Restoration Properties acquired by ARCG II, then ARCG II shall pay to the NRDAR Fund, Ashtabula River Account within thirty (30) days of completion of all ARCG II Restoration Projects, the difference between \$1,454,711.00 and the amount of the Qualified Costs expended by ARCG II.

20. Accounting to the Trustees. ARCG II shall submit to the Trustees on a monthly basis (a) an accounting of costs incurred by ARCG II in connection with ARCG II Restoration Projects, to the extent that ARCG II believes such costs are Qualified Costs, and (b) a statement of ARCG's projected costs of completing remaining activities under all Restoration Workplans approved under this Section VI.

21. ARCG II shall notify the Trustees in writing whenever it appears that the costs identified in Paragraph 20(a) and (b), above, would exceed the limitation on Qualified Costs in

Paragraph 19, above. After receiving any such notification, the Trustees may provide ARCG II with a written Statement of Priorities for proceeding with remaining work on the ARCG II Restoration Projects. Following receipt of any such statement, ARCG II shall implement all remaining work consistent with the Statement of Priorities.

22. Completion of Required Restoration Activities. a. for approval in accordance with Section VIII (Review and Approval of Workplans and Other Submissions) a draft Environmental Covenant relating to Railroads Restoration Property; and

b. a description of all interests in such Railroads Restoration Property that would not be subject to the Environmental Covenant under Ohio Revised Code § 5301.86(A), absent a subordination agreement.

Such draft Environmental Covenant shall be consistent with and in substantially the same form as the Environmental Covenant Template set forth in Appendix E.

25. If requested by the Trustees, Railroads shall seek to negotiate subordination agreements with persons holding any interest identified pursuant to Paragraph 24.b, above, and shall incorporate any such subordination agreements in a revised draft Environmental Covenant submitted to the Trustees for approval.

26. Within 30 days after approval of such draft Environmental Covenant by the Trustees, Railroads shall execute such Environmental Covenant as approved by the Trustees and present the executed Environmental Covenant to the Trustees for signature.

The Restoration Completion Report shall include a detailed description of all activities performed by Railroads on the Railroads Restoration Property and shall include as-built drawings, signed and stamped by a professional engineer, for all construction undertaken pursuant to the approved Railroads Restoration Project Workplan.

a. The Restoration Completion Report shall include a statement, signed by a registered professional engineer and Railroads' Project Coordinator, affirming that all restoration activities undertaken by Railroads pursuant to this Section were performed in accordance with the approved Railroads Restoration Workplan and all other requirements of this Consent Decree.

b. The Restoration Completion Report shall contain the following statement, signed by Railroads' Project Coordinator:

To the best of my knowledge, after thorough investigation, I certify that the information contained in or accompanying this submission is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

VIII. REVIEW AND APPROVAL OF WORKPLANS AND OTHER SUBMISSIONS

29. After review of any Workplan, draft deed or Environmental Covenant, report or other item submitted for approval pursuant to this Consent Decree, the Trustees shall: (a) approve the submission in whole or in part; (b) approve the submission upon specified conditions; (c) modify the submission to cure any deficiencies; (d) disapprove, in whole or in part, the submission, directing the submitting Party or Parties to modify the submission; or (e) any combination of the above.

30. Following approval, approval upon conditions, or modification by the Trustees of any Workplan or other submittal pursuant to the preceding Paragraph, the submitting Party or Parties shall proceed to take any action required by the Workplan, or other submittal, as approved or modified by the Trustees, subject only to any right of such Party or Parties to contest such disapproval or modification under Section XIII (Dispute Resolution).

31. Resubmission of Plans.

a. Upon receipt of a notice of disapproval pursuant to Paragraph 29(d), the Party or Parties submitting the Workplan or other submission shall, within 30 days or such longer time as specified by the Trustees in such notice, correct the deficiencies and resubmit the plan, report, or other item for approval. Any stipulated penalties applicable to the submission, as provided in Section XIV, shall accrue during the 30-day period or otherwise specified period but

shall not be payable unless the resubmission is disapproved or modified due to a material defect as provided in Paragraph 33.

b. Notwithstanding the receipt of a notice of disapproval of any Workplan or other submission pursuant to Paragraph 29(d), the Party or Parties submitting such Workplan or other submission shall proceed, at the direction of the Trustees, to take any action required by any non-deficient portion of the submission. Implementation of any non-deficient portion of a submission shall not relieve the submitting Party or Parties of any liability for stipulated penalties under Section XIV (Stipulated Penalties).

32. In the event that a resubmitted Workplan or other submission, or portion thereof, is disapproved by the Trustees, the Trustees may again require the submitting Party or Parties to correct the deficiencies, in accordance with the preceding Paragraphs. Trustees also retain the right to modify or develop the resubmitted Workplan or other submission. The submitting Party or Parties shall implement any Workplan or other submission as modified or developed by the Trustees, subject only to the right of such Party or Parties to invoke the procedures set forth in Section XIII (Dispute Resolution).

33. If upon resubmission, a plan, report, or item is disapproved or modified by the Trustees due to a material defect, the submitting Party or Parties shall be deemed to have failed to submit such plan, report, or item timely and adequately unless the submitting Party or Parties invokes the dispute resolution procedures set forth in Section XIII (Dispute Resolution) and the Trustees' action is overturned pursuant to that Section. The provisions of Section XIII (Dispute Resolution) and Section XIV (Stipulated Penalties) shall govern the implementation of the Work and accrual and payment of any stipulated penalties during Dispute Resolution. If the Trustees'

disapproval or modification is upheld, stipulated penalties shall accrue for such violation from the date on which the initial submission was originally required, as provided in Section XIV.

34. All Workplans and other items required to be submitted to Trustees for approval under this Consent Decree shall, upon approval or modification by the Trustees, be enforceable under this Consent Decree. In the event the Trustees approve or modify a portion of a plan, report, or other item required to be submitted to the Trustees under this Consent Decree, the approved or modified portion shall be enforceable under this Consent Decree.

The United States, including the Settling Federal Agencies, and the Settling Defendants recognize and acknowledge that the payment obligations of the Settling Federal Agencies under this Paragraph 37.a can only be paid from appropriated funds legally available for such purpose.

Nothing in this Consent Decree shall be interpreted as or constitute a commitment or requirement that any Settling Federal Agency obligate or pay funds pursuant to this Paragraph 37.a in contravention of the Anti-Deficiency Act, 31 U.S.C. §§ 1341-42 and §§ 1511-19, or any other applicable law.

Office, 30 East Broad Street, 25th Floor, Columbus, Ohio 43215. The State and the Settling Federal Agencies agree that in any judicial proceeding to enforce payment of the amounts owed to the State under this Consent Decree, Settling Federal Agencies may raise as a defense their obligation to comply with the Anti-Deficiency Act, 31 U.S.C. §§ 1341-42 and §§ 1511-19, or any other applicable law. While the State disagrees that such defenses exist, the State and Settling Federal Agencies agree that it is premature at this time to raise and adjudicate the existence of such defenses.

In the event that Settling Federal Agencies do not make any payment required under Paragraph 37 within 120 days after entry of this Consent Decree, Settling Federal Agencies shall pay Interest on the unpaid balance commencing on the 121st day after entry through the date of full payment. All payments required pursuant to this Paragraph shall be made in the same manner and directed to the same funds or accounts as specified in Paragraph 35.a and b (for payments by ARCG II), Paragraph 36.a and b (for payments by Railroads), and Paragraph 37.a and b (for payments by Settling Federal Agencies). Any payments pursuant to this Paragraph shall be in

addition to any other remedies provided by this Consent Decree for failure to make timely payments required under this Section.

X. TRUSTEE-SPONSORED NATURAL RESOURCE RESTORATION ACTIVITIES

40. All funds deposited in a segregated sub-account within the NRDAR Fund pursuant to Paragraphs 19, 35.a.(1) or 36.a.(1) shall be managed by DOI for the joint benefit and use of the Trustees to pay for natural resource restoration efforts in accordance with this Consent Decree, including but not limited to, planning, selection and implementation of any natural resource restoration activities, as well as any administrative, legal, oversight and maintenance activities undertaken by the Trustees in connection with ARCG II Restoration Projects or the Railroad Restoration Project. All such funds shall be applied toward the costs of restoration, rehabilitation, or replacement of injured natural resources, and/or acquisition of equivalent resources.

41. Restoration Planning. The Trustees have prepared a Restoration Plan describing how the funds will be used for restoration, rehabilitation, replacement or acquisition of equivalent resources. The Restoration Plan is attached hereto as Appendix C.

42. Use and Expenditure of Funds. Decisions regarding any use or expenditure of funds under this Section shall be made by the Trustees, acting through a Trustee Council. Settling Defendants and Settling Federal Agencies shall not be entitled to dispute, in this or any other forum or proceeding, any decision of the Trustees relating to use of funds or restoration efforts under this Section.

**XI. ACCESS TO RESTORATION PROPERTIES; INFORMATION
AND DOCUMENT RETENTION**

43. a. Commencing on the date of lodging of this Consent Decree, ARCG II shall provide the Plaintiffs and their representatives access at all reasonable times to the Restoration Properties upon presentation of credentials, and allow Plaintiffs and their representatives to move about, without restriction, for the purposes of conducting any activity related to this Consent Decree, including but not limited to monitoring implementation of ARCG II Restoration Projects, verifying any data or information submitted to the Plaintiffs under this Consent Decree, and assessing ARCG II's compliance with this Consent Decree.

b. Upon acquisition of any Additional Restoration Property, ARCG II shall provide the Plaintiffs and their representatives access at all reasonable times to such Additional Restoration Property, and to allow Plaintiffs and their representatives to move about such Additional Restoration Property, without restriction, for the purposes of conducting any activity related to this Consent Decree, including but not limited to monitoring implementation of ARCG II Restoration Projects, verifying any data or information submitted to the Plaintiffs under this Consent Decree, and assessing ARCG II's compliance with this Consent Decree.

44. Commencing on the date of lodging of this Consent Decree, Railroads shall provide the Plaintiffs and their representatives access at all reasonable times to the Railroads Restoration Property upon presentation of credentials, and allow Plaintiffs and their representatives to move about, without restriction, for the purposes of conducting any activity related to this Consent Decree, including but not limited to monitoring implementation of the Railroads Restoration Project, verifying any data or information submitted to the Plaintiffs under this Consent Decree, and assessing Railroads' compliance with this Consent Decree.

45. All rights of access pursuant to this Section XI shall be in addition to, and shall not limit, any access rights afforded by any law or regulation.

46. Settling Defendants shall provide to Plaintiffs, upon request, copies of all documents and information within their possession or control (or that of their contractors or agents) relating to compliance with this Consent Decree. Settling Defendants shall also make available to Plaintiffs their employees, agents, or representatives with knowledge of relevant facts concerning their compliance with this Consent Decree.

47. Until 10 years after the entry of this Consent Decree, Settling Defendants shall preserve and retain all records and documents now in their possession or control, or which come into their possession or control, that relate in any manner to: (i) the claims alleged in the Complaint; or (ii) Settling Defendants' compliance with this Consent Decree. At the conclusion of this document retention period, Settling Defendants shall notify the United States and the State at least 90 days prior to the destruction of any such records or documents, and, upon request by the United States or the State, Settling Defendants shall deliver any such records or documents to the United States or the State.

a. ARCG II and Railroads may assert business confidentiality claims covering part or all of the documents or information submitted to the Plaintiffs under this Consent Decree, to the extent permitted by and in accordance with 40 C.F.R. Part 2 (with respect to information or documents submitted to the United States) and in accordance with applicable state law (with respect to information or documents submitted to the State). For documents or information determined to be confidential by Plaintiffs, the United States will afford the documents or information confidentiality protection as provided by 40 C.F.R. Part 2, Subpart B, and the State

will afford the documents or information confidentiality protection as provided by applicable state law. If no claim of confidentiality accompanies documents or information when they are submitted to the Plaintiffs, the public may be given access to such documents or information without further notice in accordance with 40 C.F.R. Part 2, Subpart B or applicable state law.

b. Settling Defendants may assert that certain documents and information are privileged under the attorney-client privilege or any other privilege recognized by law. If Settling Defendants assert such a privilege in lieu of providing documents, Settling Defendants shall provide the Plaintiffs with the following: (i) the title of the document; (ii) the date of the document; (iii) the name and title of the author of the document; (iv) the name and title of each addressee and recipient; (v) a description of the contents of the document; and (vi) the privilege asserted by Settling Defendants. No documents or information created or generated pursuant to the requirements of the Consent Decree shall be withheld on the grounds that they are privileged.

48. The United States acknowledges that each Settling Federal Agency is subject to all applicable Federal record retention laws, regulations and policies.

XII. FORCE MAJEURE

49. “Force majeure,” for purposes of this Consent Decree, is defined as any event arising from causes beyond the control of the Settling Defendants, of any entity controlled by Settling Defendants, or of Settling Defendants' contractors, that delays or prevents the performance of any obligation under this Consent Decree despite Settling Defendants' best efforts to fulfill the obligation. The requirement that the Settling Defendants exercise “best efforts to fulfill the obligation” includes using best efforts to anticipate any potential force majeure event and best efforts to address the effects of any potential force majeure event (1) as it is occurring

and (2) following the potential force majeure event, such that the delay is minimized to the greatest extent possible. "Force Majeure" does not include financial inability to complete any requirements of this Consent Decree.

50. If any event occurs or has occurred that may delay the performance of an obligation of any Settling Defendant under this Consent Decree, whether or not caused by a force majeure event, the Party or Parties whose performance may be affected by the event shall notify orally the Trustees, within 3 days of when such Party or Parties first knew that the event might cause a delay. Within 14 days thereafter, such Party or Parties shall provide to the Trustees a written notice setting forth: an explanation and description of the reasons for the delay; the anticipated duration of the delay; all actions taken or to be taken to prevent or minimize the delay; a schedule for implementation of any measures to be taken to prevent or mitigate the delay or the effect of the delay; the rationale for attributing such delay to a force majeure event if such a claim may be asserted by the Party or Parties submitting the notice; and a statement as to whether, in the opinion of the Party or Parties submitting the notice, such event may cause or contribute to an endangerment to public health, welfare or the environment. The Party or Parties submitting such notice shall include with any notice all available documentation supporting the claim that the delay was attributable to a force majeure. Failure of any Party to comply with the above requirements shall preclude such Party from asserting any claim of force majeure for that event for the period of time of such failure to comply, and for any additional delay caused by such failure. For purposes of this Section, circumstances known, or that should have been known, by any ARCG II member, any entity controlled by any ARCG II member or any contractor retained by ARCG II for purposes of this Consent Decree, shall be deemed to be known by all ARCG II

members, and circumstances known, or that should have been known, by either of the Railroads, any entity controlled by either of the Railroads, or any contractor retained by Railroads for purposes of this Consent Decree, shall be deemed to be known by both Railroads.

51. If the Trustees agree that the delay or anticipated delay is attributable to a force majeure event, the time for performance of the obligations under this Consent Decree that are affected by the force majeure event will be extended by the Trustees, for such time as is necessary to complete those obligations. An extension of the time for performance of the obligations affected by the force majeure event shall not, of itself, extend the time for performance of any other obligation. If the Trustees do not agree that the delay or anticipated delay has been or will be caused by a force majeure event, the Trustees will notify the Settling Defendants in writing of their decision. If the Trustees agree that the delay is attributable to a force majeure event, the Trustees will notify the Settling Defendants in writing of the length of the extension, if any, for performance of the obligations affected by the force majeure event.

52. Settling Defendants may invoke the dispute resolution procedures set forth in Section XIII (Dispute Resolution) to contest any decision of the Trustees under this Section, provided that they shall do so no later than 15 days after receipt of notice of the Trustees' decision. In any such proceeding, the Settling Defendants invoking dispute resolution shall have the burden of demonstrating by a preponderance of the evidence that the delay or anticipated delay has been or will be caused by a force majeure event, that the duration of the delay or the extension sought was or will be warranted under the circumstances, that best efforts were exercised to avoid and mitigate the effects of the delay, and that such Settling Defendants

complied with the requirements of Paragraphs 49 and 50, above. In any case where this burden is carried by the Party or Parties asserting the force majeure claim, the delay at issue shall be deemed not to be a violation of the affected obligation of this Consent Decree identified to Trustees and the Court.

XIII. DISPUTE RESOLUTION

53. The dispute resolution procedures of this Section shall be the exclusive mechanism to resolve disputes arising under or with respect to this Consent Decree; provided, however, that: nothing in this Consent Decree shall be construed to authorize any Party to dispute any action or determination of the Trustees: (a) disapproving, modifying, or conditionally approving, any provision (other than the proposed implementation schedule) in any Workplan submitted pursuant to Section VI, above; or (b) in selecting or carrying out any natural resource restoration activities or in managing or expending funds pursuant to Section X (Trustee-Sponsored Natural Resource Restoration Activities). The procedures set forth in this Section shall not apply to actions by Trustees to enforce obligations of any Settling Defendants that have not been disputed in accordance with this Section. Nor shall this Section apply to disputes between or among Settling Defendants and the Settling Federal Agencies under this Consent Decree.

54. Informal Dispute Resolution. Any dispute subject to Dispute Resolution under this Consent Decree shall first be the subject of informal negotiations. The dispute shall be considered to have arisen when the Party contesting the action or determination of the Trustees sends the Trustees a written Notice of Dispute. Such Notice of Dispute shall state clearly the matter in dispute. The period of informal negotiations shall not exceed 30 Days from the date the dispute arises, unless that period is modified by written agreement of the Parties to the dispute. If

the Parties cannot resolve a dispute by informal negotiations, then the position advanced by the Trustees shall be considered binding unless, within 30 Days after the conclusion of the informal negotiation period, the Party contesting the action or determination of the Trustees (the “Disputing Party”) invokes formal dispute resolution procedures as set forth below.

55. Formal Dispute Resolution. The Disputing Party shall invoke formal dispute resolution procedures, within the time period provided in the preceding Paragraph, by serving on the Trustees a written Statement of Position regarding the matter in dispute. The Statement of Position shall include, but need not be limited to, any factual data, analysis, or opinion supporting the Disputing Party’s position and any supporting documentation relied upon by the Disputing Party. The Trustees shall serve their Statement of Position within 45 Days of receipt of the Disputing Party’s Statement of Position. The Trustees’ Statement of Position shall include, but need not be limited to, any factual data, analysis, or opinion supporting that position and any supporting documentation relied upon by the Trustees.

a. An administrative record of the dispute shall be maintained by the Trustees and shall contain all Statements of Position, including supporting documentation, submitted pursuant to this Section. Where appropriate, the Trustees may allow submission of supplemental Statements of Position by the parties to the dispute.

b. The Regional Director of FWS and the Director of Ohio EPA or their designees will jointly issue a final administrative decision resolving the dispute based on the administrative record described in Paragraph 55.a. This decision shall be binding upon the Disputing Party, subject only to the right to seek judicial review pursuant to Paragraph 56.

56. The Disputing Party may seek judicial review of the dispute by filing with the Court and serving on the Trustees, in accordance with Section XIX of this Consent Decree (Notices and Submissions), a motion requesting judicial resolution of the dispute. The motion must be filed within 10 Days of receipt of the administrative decision pursuant to Paragraph 55.b. The motion shall contain a written statement of the Disputing Party's position on the matter in dispute, including the Disputing Party's position concerning the applicable Standard of Review to be applied by the Court pursuant to Paragraph 58.a or b, below, together with any supporting factual data, analysis, opinion, or documentation, and shall set forth the relief requested and any schedule within which the dispute must be resolved for orderly implementation of the Consent Decree.

57. The Trustees shall respond to the Disputing Party's motion within the time period allowed by the Local Rules of this Court. The Disputing Party may file a reply memorandum, to the extent permitted by the Local Rules.

58. Standard of Review

a. Disputes Concerning Matters Accorded Record Review. Except as otherwise provided in this Consent Decree, in any dispute brought under Paragraph 55 pertaining to the adequacy or appropriateness of implementation schedules, or any other items requiring approval by the Trustees under this Consent Decree; the adequacy of the performance of restoration activities undertaken pursuant to Sections VI and VII of this Consent Decree; and all other disputes that are accorded review on the administrative record under applicable principles of administrative law, the Disputing Party shall have the burden of demonstrating, based on the administrative record, that the administrative resolution of the dispute by the Regional Director

FWS and the Director of Ohio EPA, or their designees, is arbitrary and capricious or otherwise not in accordance with law.

b. Other Disputes. Except as otherwise provided in this Consent Decree, in any other dispute brought under Paragraph 55, the Disputing Party shall bear the burden of demonstrating that its position complies with this Consent Decree and better furthers the objectives of the Consent Decree.

59. The invocation of dispute resolution procedures under this Section shall not, by itself, extend, postpone, or affect in any way any obligation of any Settling Defendant under this Consent Decree, unless and until final resolution of the dispute so provides. Stipulated penalties with respect to the disputed matter shall continue to accrue from the first Day of noncompliance, but payment shall be stayed pending resolution of the dispute as provided in Paragraph 64.
